We are seeking a representative for our business.

Hi,

Our company, BunnySpire LLC, is experiencing rapid growth, and I'm Nick, the CTO. As IT consultants, we've achieved great success in the US market and are currently expanding our business.

However, our developers have their own jobs and are not available for new job interviews. Therefore, we are seeking a representative responsible for conducting interviews. We are looking for someone with excellent **communication and technical skills** to enhance our competitive strength.

In this role, you will conduct interviews with information of our developers, and they will also offer robust technical support to help you secure jobs. After winning a job, our developers will **handle the project 100% on our end**.

Regarding compensation, 15%-20% of the total income will be yours—equivalent to **$1500 - $2000** monthly per job. As you secure 4-5 jobs, your monthly income could reach **$10,000**.

Additionally, we will provide you with **a monthly bonus** based on your skills and passing rate for the interviews.

If you are interested in this position, you can reach out to us at “**goldenicks**” on Discord.

*Required:

Fluency in English is a MUST.

Experience with C#, ASP.NET, Cloud, Agile Methodology

*Nice to have:

React, Angular, Native English
