James Yu

Web & Blockchain developer

blackcrane065@gmail.com

Date of birth 12/01/1995

Work experience

Web & Blockchain Developer

From May 2022 to December 2022 **Terraspaces** United States

I had build NFT mint & stake & marketplace on Solana & Ethereum Network from scratch.
I had used React.js for frontend based on Figma design and Solidity & Rust for smart contract.
I had synchronize smart contract and subgraph data with client-side state.

Web & Blockchain Developer

From January 2022 to April 2022 **Surge** United Kingdom

I had build frontend pages with React.js based on HTML template that purchased on online template store.
I had created smart contract for bid job on Solana network.
I had done web3 for integration.

Web3 Development Lead

From January 2021 to August 2021 **MyMeta** United States

I had mainly focused on create smart contract for Metaverse game on Polygon chain.
I had extended upon our standard patterns for implementing frontend Web3 functionality
I had understood whole roadmap and divided into multiple parts to fit blockchain developer's role.
I had lead engineering teams in blockchain, crypto, or Web3.

Web & Blockchain Developer

From March 2020 to September 2020 **Unifinity** United Arab Emirates

I had developed frontend pages with React.js/Next.js based on User-friendly & SEO Optimization in high rank.
I had created token smart contract on Near & Tron & EVM Network and swap protocol contract with Solidity & Rust.
I had integrated frontend & smart contract using high skilled web3 technology.

Front End Developer & Promoted as MernStack Teach Lead

From December 2018 to October 2019 **Innoways** Hong Kong

I had wrote clean, re-usable, reliable and performant React code.
I had made style and animate components based on Figma specifications.
I had built open-source code that is clean, maintainable, and well-tested, for production networks at scale.
I had built order web app with React.js/Next.js and Node.js using Web Socket APIs.
I had collaborated with product owners, designers, and other developers.

Education

Computer Basic

From October 2009 to September 2014
Overseas Family School Singapore

Computer Science

From October 2014 to October 2018
James Cook University Singapore

Computer skills

HTML/HTML5

Tailwind CSS

JavaScript

React.js

TypeScript

Next.js

Vue.js

Nuxt.js

Node.js

Solidity

Rust
