Sheng Fulai

Senior Full Stack Developer

+15599001847 tanyingying429@gmail.com

Summary

Passionate full stack web developer with over 9 years of experience, proven track record of almost 50successful projects and solved complex technical & business problems during the time. The fundamental ingredient to successful development is clear communication from the ground up. Enjoy collaborating with a team, supporting new ideas, sticking with the problem to the end, and always up for something new to learn. One conversation with me, and you'll feel confident I understand your needs & your budget, while being able to contribute my professional input and guidance to help steer you in the right direction. Looking to put my creativity and passion into my code to grow your revenue exponentially.

Skills

Languages: HTML PHP JavaScript (ES6+) Typescript

Frontend: CSS3 SASS LESS Tailwind CSS Shopify Hydrogen WordPress Laravel React.js Next.js Vue.js Redux Angular Vuex TanStack Query MUI Responsible Design

Backend: Node.js Django Express Shopify Plus Shopify Admin API Storefront API

Database: MongoDB MySQL MSSQL PostgreSQL GraphQL

Other tools: Docker GitHub Kubernetes Gaming Vercel Oxygen AWS

Experience

Senior Software Engineer - Remote

RealtyDao – Boca Raton, US Apr 2023 - Oct 2024

As a Senior Software Engineer, I led Hydrogen-based Shopify projects, creating optimized e-commerce solutions with reusable components, API integrations, and frontend-backend collaboration to maximize performance and user experience.

Hydrogen React.js Shopify Storefront API Shopify Admin API Lazy loading Code splitting Cross-functional collaboration Headless Commerce

- Led a team in building multiple headless Shopify stores using Hydrogen, enabling highly customizable, dynamic e-commerce solutions that improved load times by up to 40%.
- Built reusable React components within Hydrogen to streamline development processes, reducing development time by 30% for new client projects.
- Developed API integrations using Shopify's Storefront API and Admin API to create custom solutions, including advanced filtering, personalized recommendations, and user profiles.
- Collaborated with cross-functional teams, including designers and backend engineers, to ensure seamless integration of the frontend and backend.
- Optimized code and implemented lazy loading, code splitting, and caching strategies for improved storefront performance.
- Stayed up-to-date with the latest in headless commerce, consistently experimenting with new technologies to improve user experiences.

Lead Developer – part time Remote

RotationPlus– Los Angeles, CA Aug 2022 - Feb 2023

As a Lead Developer, I led the development team, managed project timelines, ensured high-quality code through reviews and best practices, and communicated with stakeholders to deliver technical solutions aligned with business goals.

React.js Shopify Hydrogen Node.js Agile Development Version Control E-commerce

- Worked extensively with React and Shopify Hydrogen to deliver fast, mobile-friendly storefronts optimized for performance and SEO, increasing conversion rates for key clients by 15%.
- Worked extensively with React and Shopify Hydrogen to deliver fast, mobile-friendly storefronts optimized for performance and SEO, increasing conversion rates for key clients by 15%.

- Regularly performed code reviews and collaborated with developers in an Agile environment, maintaining high standards in code quality and performance.
- Utilized version control with Git and GitHub, enforcing code management best practices for smooth project rollouts and team collaboration.
- Designed custom ecommerce solutions that elevated monthly sales figures by 60% through enhanced customer experience.

Full Stack Developer – part time Remote

Cimpatico Studios – SanFrancisco, CA

Nov 2021 - Feb 2022

As a Full Stack Developer, your responsibilities span both the front-end and backend development, working on everything from the user interface to server-side logic.

React.js Node.js Express GraphQL Storefront API UI/UX

- Developed responsive, interactive, and reusable components in React for Shopify storefronts, enhancing user experience and aligning with client branding requirements.
- Implemented complex, real-time data handling using Shopify's Storefront API and state management libraries to display accurate product information and inventory status.
- Ensured a seamless user experience by optimizing front-end code, reducing page load times through code-splitting, lazy loading, and responsive design techniques.
- Collaborated with design and UX teams to translate mockups into fully functional, interactive interfaces.

Web Development specialist - onsite

Greenbay Limited – London, UK Feb 2016 - Dec 2018

React.js Redux JavaScript Node.js Express Shopify GraphQL MongoDB UI/UX eCommerce MySQL PostgreSQL

- Earned solid Shopify experience on the 15+ successful projects.
- Engineered and updated Shopify based eCommerce websites.
- Resolved much Shopify restrictions & technical issues myself.
- Collaborated with UI/UX designers, QAs, Project Managers to reach out the most successful result in each project.
- Developed and maintained backend services for a high-traffic e-commerce platform, handling over 1 million requests per day.

Frontend Developer - Intern

Lowe's Companies, Inc – North Wilkesboro, NC Jan 2014 – Jan 2016

HTML CSS JavaScript WordPress React Angular jQuery RESTful API UI/UX PHP

Magento Woocommerce CI Laravel Bootstrap eCommerce Opencart

- Programmed the front and back ends of web applications, using CodeIgniter, Laravel for backend, and HTML5, jQuery, CSS, Bootstrap for frontend.
- Engineered and updated Shopify based eCommerce websites.
- Translated wireframes and design mockups into clean, efficient, and maintainable code.
- Started switching my career goal to eCommerce development with PHP frameworks like Magento, Woocommerce, Opencart in 2014.

Project

My Billie
Description: Developed responsive, interactive React.js components for Shopify storefronts, improving user experience and aligning with branding requirements.
Teach Stack: HTML CSS JavaScript React.js Shopify Hydrogen GraphQL WordPress
